

Pecora NST Non-Staining Technology™

Introducing, Pecora 898NST Sanitary Silicone

Now Classic 898 has been advanced to the next level of performance with Pecora's NST Non-Staining Technology™.

Traditional 898 combined silicone durability with the mildew and mold resistance necessary for interior applications where a high degree of cleanliness and freedom from mold and mildew growth is required. Now, with NST Non-Staining Technology, you can have the peace of mind that your sealant not only resists the growth of unsightly and potentially dangerous molds but also eliminates the potential for staining of natural stones such as granite, marble and limestone that can occur with traditional silicone.

Benefits of 898NST, the First Non-Staining Sanitary Silicone Made in the USA:

- 898NST will not damage natural stone such as marble or granite
- No silicone fluid to leach into and stain tiles or countertops
- Reduced pick-up of dirt and grime that promotes mold and mildew growth
- USDA acceptance
- Noncorrosive
- Clearer appearance of translucent color
- Easier to tool
- Fewer call backs

Like Pecora's original line of NST silicones, Pecora 898NST does not contain those fluid molecules that tend to migrate into adjacent porous substrates damaging them with unsightly stains.

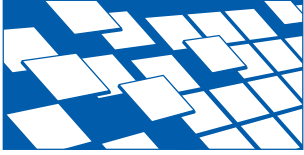

Basic Uses:

- Hospitals
- Schools
- Laboratory Clean Rooms
- Kitchens
- Bathrooms

Use 898NST to seal the perimeter of fixtures anywhere mold and mildew are likely to grow. It is also the ideal sealant for resetting or re-grouting ceramic or natural stone tile.

Pecora's 898NST Sanitary Silicone

Specifications:

Property	Value	Test Procedure
VOC (g/L)	50	ASTM D3960
Joint Movement	± 50	ASTM C719
Hardness (Shore A)	25-35	ASTM C661
Fungi Resistance	No Growth	ASTM G21
Tack Free Time (minutes)	30	ASTM C679
Peel Adhesion (marble, granite)	Pass	ASTM C794
Ultimate Tensile Strength (psi)	165	ASTM C1135

Colors:

- Translucent
- Almond
- Tru-White
- Black

Packaging:

- 10.1 oz. (300 ml.) cartridges
- 2 gallon (7.57L) pails
(Special order with 30 gal. minimum)

Shelf Life:

12 months from date of manufacture in original, unopened containers when stored at temperatures lower than 80°F (27°C).
