SPECIALTY FINISHES

PAREXUSA

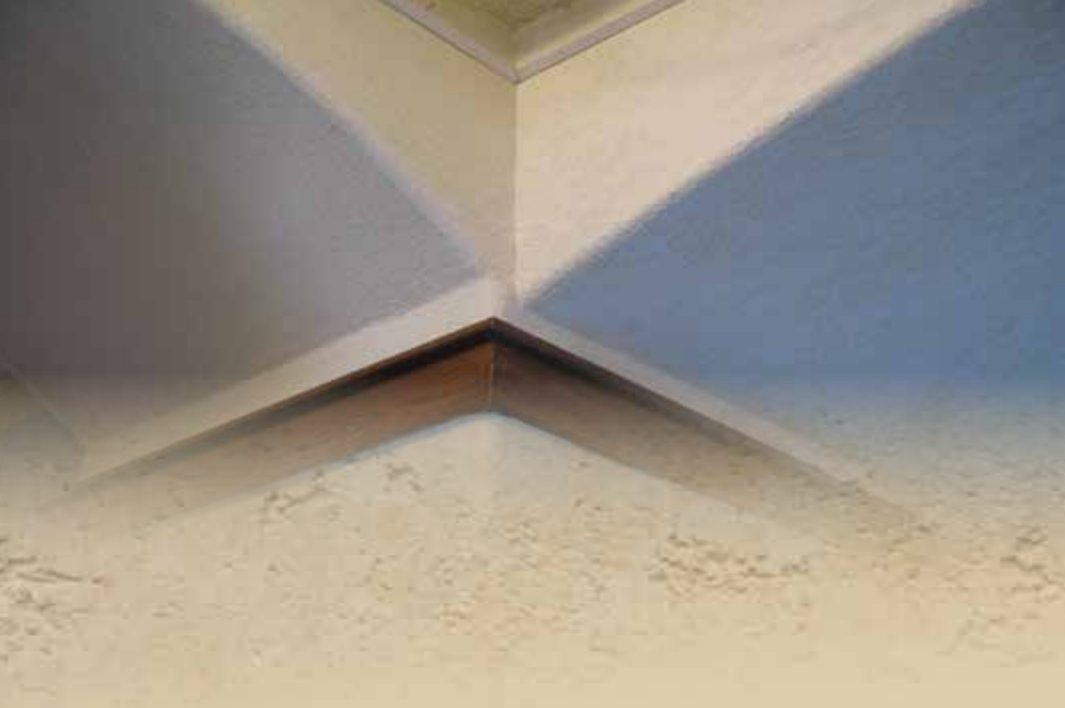

ArmourTONE®

High performance interior/exterior acrylic finish for spray application over prepared drywall, plaster, concrete or most existing surfaces, creating beautiful integrally colored textures in a variety of styles.

The ultimate in high performance, long lasting, and affordable interior wall finishes.

- **Spray Applied**
- **Integrally Colored**
- **Economical**
- **Sustainable**
- **Guaranteed**

abuse resistant

New Construction /Renovation

Variance Abuse Resistant systems reduce the level of drywall finish preparation, reducing costs and construction time. They are ideal for new construction, renovation or concrete leveling of lids and walls.

Exceptional Performance

- **Abuse Resistant**
- **Scrub Resistant**
- **Washable**
- **Mold & Mildew Resistant**
- **Repairable**
- **Impact Resistant**

Cost Effective

- **AR Veneer Plaster: no dust, two coats**
- **AR Drywall L3: no dust, two coats vs. four**
- **AR Drywall L5 and AR Drywall L5 Ultra**
 - ✓ Eliminate steps, minimize dust, improve performance
 - ✓ Three step joint treatment with minimal sanding
 - ✓ Level 5 surfacing with one spray application – no touch, no sanding
